Homeschool Skating Program

This program is designed to aid homeschooled students in keeping fit, earning required physical education credits, while having a lot of fun.

Whether your goal is to fulfill a P.E. requirement, play team hockey, figure skate competitively, or just skate for fun and fitness, this program is a great place to start.

No previous skating experience is required. Skaters must be 5-17 years of age to participate.

About Classes

What Should I Wear?

Please wear comfortable, warm clothing such as: jeans or exercise pants, long-sleeved shirt, a light-weight sweater or jacket, and gloves.

What Will I Learn?

The Homeschool Skating Program follows the United States Figure Skating Association's Basic Skills Program, which teaches the basics of all types of skating. Whether you are interested in figure skating or hockey, the basic skills of all types of skating are the same: balance, edge control, gliding, turning, and stopping.

How Are Classes Structured?

Weekly 30 minute group instruction classes are held on a designated public session followed by a public session practice time. Rental skates are included on class day. Students will receive a USFSA Basic Skills membership card, record book with stickers, membership patch, year patch, a patch for the highest level completed during the 8-week session and a certificate of participation.
